ISO 24511:2007

Activities relating to drinking water and wastewater services — Guidelines for the management of wastewater utilities and for the assessment of wastewater services

BUY THIS STANDARD

ABSTRACT

PREVIEW

ISO 24511:2007 provides guidelines for the management of wastewater utilities and for the assessment of wastewater services.

ISO 24511:2007 is applicable to publicly and privately owned and operated wastewater utilities, but does not favour any particular ownership or operational model.

ISO 24511:2007 addresses wastewater systems in their entirety and is applicable to systems at any level of development (e.g. pit latrines, on-site systems, networks, treatment facilities).

The following are within the scope of ISO 24511:2007:

- the definition of a language common to different stakeholders;
- objectives for the wastewater utility;
